

Vibrating Feeder

During processing, the equipment can evenly and continually send raw material into the crushers in the given time, separating the raw materials. It is widely used in metallurgy, coalore, mine separation, construction, chemical, etc.

Feature Of Vibrating Feeder:

Models	Trough size (mm)	Max. Feed size (mm)	Feeding capacity (t/h)	Spindle speed (r/min)	Power (kw)	Groove lofts	Weight (kg)	Overall dimension (mm)
ZSW-300*70	3000*700	<500	60-120	350-800	7.5	0	3225	3075*1450*1250
ZSW-380*96	3800*960	<500	100-160	350-800	11	0	4210	3882*1684*1340
ZSW-490*96	4900*960	<500	120-200	350-800	15	0	5004	4957*1677*1365
ZSW-360*110	3600*1100	<500	100-160	350-800	11	0	4321	3700*1805*1195
ZSW-490*110	4900*1100	<580	200-300	350-800	15	0	6700	4957*1841*1365
ZSW-590*130	5900*1300	<700	300-400	750	22	5	7900	4957*1841*1365
ZSW-600*110	6000*1100	<600	400-500	350-800	22	0	8200	6000*1841*1365
