

### vibrating screen

vibrating screen moves round, has multilayers and is high efficient. The eccentric shaft vibration exciter and partial block help to adjust amplitude. The feature has different specifications, reliability, strong exciter, high efficiency, little noise, durability, convenient maintenance and safety. It is widely used for classification in mining, construction material, transportation, energy etc.

### Feature Of vibrating screen:

Models	Screen Spec (Mm)	Screen Deck	Screen Mesh (mm)	Feed size (mm)	Capacity (t/h)	Power (kw)	Vibrating Frequency (HZ)	Double Amplitude (mm)
2YZS1548	4800*1500	2	5-50	<100	50-250	15	870	5-9
3YZS1548	4800*1500	3	5-50	<100	50-250	15	870	5-9
2YZS1848	4800*1800	2	5-50	<100	50-250	18.5	870	5-9
3YZS1848	4800*1800	3	5-50	<100	50-250	18.5	870	5-9
2YZS1860	6000*1800	2	4-40	<100	50-128	18.5	870	5-9
3YZS1860	6000*1800	3	4-40	<100	50-128	22	870	5-9
2YZS2160	6000*2100	2	5-50	<100	60-300	22	730	5-9
3YZS2160	6000*2100	3	5-50	<100	60-300	30	730	5-9
